Mug Shot Capture System Overview

“MUGS”

MugShot Capture – Get a New Photo Number

The MugShot Capture program is displayed below. This is the screen the operator will see when he begins a new arrest.

The operator should now click the button or push the new arrest button . This will create a new photo number. (The computer will keep track of the photo numbers and automatically generate on when you take a MugShot of a new arrest.

Then, the operator will click or push the “Get Photo” button on the MugShot control box. When this is done a live video image will be displayed. This live screen is shown on the next page.

MugShot Capture – Live Image

Now the full screen live picture is displayed on the monitor. The operator should wait until the person's face is in the correct position and then hit the Save Photo Button on the MugShot Control Box.

If the operator decides not to take a picture at this time he can hit the escape key on the keyboard.

MugShot Capture – Completed

After the operator has pushed the Save Photo button on the MugShot Control box this screen will be displayed. The captured image is displayed on the screen. The operator can take additional pictures by repeating the process of Get Photo / Save Photo. This is useful for taking pictures of side profiles and other poses.

If the operator took more than one picture for this arrestee the number of pictures will be displayed here.

MugShot Maintenance – Main Screen

This is the main screen of the MugShot Maintenance program. This is where name information is entered into the database. You may add a new name, Locate an existing name or quit the program.

MugShot Maintenance - Locate Name

This screen is where you locate a name. You can search by SSN, Photo#, Name, IR#, or New Photos.

Click the “View One” button to see the picture for the selected name.

The “Find” tab is used to locate specific individuals if you know their name, IR, Arrest, or DL Number. The Find screen will perform an incremental search on any of the four available search fields.

MugShot Lineups – Search Tab

The “Search” tab gives you the ability to search through the Mug Shots by entering example values for many different identifiers. This is the first step in creating a lineup.

The screen below shows how you would search for white males between the ages 32 – 50.

The screenshot shows a software window titled "Review" with a tabbed interface. The active tab is "(3) Search". Below the tabs is a section titled "Quick Search Options" containing several input fields:

- Sex: M
- Race: W
- Age: 32 to 50
- Height: 0 0 0 0
- Weight: 0 0
- Offense: [empty]
- Arrest Type: [empty]
- Gang Name: [empty]
- Comments: [empty text box]

At the bottom of the window, there are two buttons: "? Search Now" and "X Click Here to Search Now". A red arrow points from a text box below to the "Comments" field.

You can search through the comments for scars, marks and tattoos.
